Under the roof there is a building. In the building there are several apartments. Each apartment has a door, and behind each door there is a story. This show's main characters are the persons who inhabit these stories: an old lady knitting a scarf, a neighbour who repairs stars from her window, a travelling salesman who, like a shooting star, leaves behind a piece of his past... An exciting comedy that reminds us that anything that happens to us every day can truly be extraordinary.
The company Pata Teatro, founded in Malaga in 1998, is devoted to the cultural and artistic production and management of its projects, encompassing different performing art disciplines and languages. Over the years the company has produced twenty-two shows that have been programmed in almost all the theatre circuits and networks in Spain.
