Have you ever heard of the planet where everything is possible? Even though it is small, this planet is very important, because it is in charge of helping make wishes come true.
Alma, our story's main character, will go there to discover everything the planet can do. Are you brave enough to go with her?
This little heroine shows us the importance of overcoming adversity. In addition to providing entertainment and adventures, *Viaje al planeta de todo es posible* invites us to reflect on the importance of looking beyond the appearance of things, transmitting values such as perseverance and kindness. .
Índigo Teatro was founded in 2014 by the actress and dancer Celia Almohalla with the objective of creating theatrical and musical shows for all age groups, and in particular for early childhood. Her shows, with original scripts and music, are committed to originality, contemporary topics and values education.
