The magic of balloons surrounds spectators and creates a fantasy world before their eyes: like magic coming out of a top hat, balloons give form to innocence, love, mystery.
Globsesion is an interactive show in which surprise, the effects of magic and humour stimulate the curiosity and the awe of little ones, and help adults maintain their enthusiasm and good humour.
Willy Monroe is a versatile magician and artist from Madrid, a virtuoso of illusionism, close-up magic, balloon sculptures, soap bubbles, origami, card juggling, puzzles, yo-yos, palindromes and many other oddities.
