In recent years the stories of great women have been shown on our screens. From the magnificent and popular *The Queen's Gambit*, which has made the fascinating game of chess popular again, to the heartbreaking story of *For Sama*, a flight from the hell of Aleppo to the tragedy of being a refugee; the story of a journalist mother and her newly born daughter, which has deeply moved the whole world and won the BAFTA Award for Best Documentary in 2020. This special book of stories will also include *Promising Young Woman*, Oscar for the Best Screenplay in 2021 and one of the best films of 2020; and *Blood*, one of the best film scores by Paloma Peñarrubia,
