“A year without performing is a long time. Perhaps too long. But it was necessary, and has certainly been useful. The band and I are ready to go on tour, I hope for a long time, to present the hard work that has kept us busy these last months away from the stage. Our new songs speak of the passing of time, of discoveries and losses, of frailness, of the shadow of death...and paradoxically, in my opinion it is a very luminous record. (...) Now it's your turn, and you are going to have to take a risk. Take a risk and be ready for anything, because we are definitely going to try to make this concert something you have seen before, something that will make all of feel completely alive... even though we're dead. See you soon. We'll be waiting ...”

Coque Malla

Coque Malla continues to show that he is the most chameleonic singer of rock and roll in Spanish. Since the beginning of his career of more than thirty years with Los Ronaldos, whose organic sound is associated to the Rolling Stones and Chuck Berry, he has evolved towards other genres such as pop, soul and funk, liberating himself from all types of anchorage. He has been on his own since 1999, without renouncing to his originality and essence, building a very personal, increasingly ambitious and complex sound. Having become a benchmark for several generations, Coque Malla has gone through many phases producing great songs. He is an exemplary musician, actor, and composer for film and theatre, having won a Goya Award for Best Original Song. All of his facets, whether popular, more obscure, amiable or cinematographic, appear in his live performances, which are a must for enthusiasts of good music.
