xaropteatre.com

Pupi is a little boy who plunges into his dreams and takes us with him to the world of games, of doodles that dance and sing to the rhythm of happiness and colour. This is a voyage to Pupi's imagination, where everything is possible and can come to life to make us feel and dream. When Pupi opens his eyes something deep inside us has changed – because we are all Pupi!
Xarop Teatre was founded in 2000 in Castellón de la Plana. Since then, the company has produced shows for families, using different poetic and aesthetic languages, consolidating their own special way of making content theatre that provokes reflection and generates an experience in spectators. The company collaborates with artists from other countries and participates in the management of cultural events that aim at

creating and forming new audiences.
