Show recommended by the Commission for Social Inclusion of the Public Network of Theatres and Auditoriums

"My daughter Marina cannot walk because she is a siren."

Marina is a girl who cannot walk. Since she was born, her father carries her in her chair, on his shoulders, with steps of a giant... But one day she goes to a swimming pool for the first time, and there she feels different. She turns into a siren. She moves freely. *Hay una sirena en mi salón* is based on the real story of Valentina, a seven year old girl who suffers from SMA, Spinal Muscular Atrophy, a strange disease that prevents her from walking. This is the story of a father and his daughter. A father who takes care of his daughter so that nothing will happen to her. And a daughter who just wants things to happen to her.

"La Teta Calva was founded in 2014 out of a need to jump into the void, to look for
