“You are invited to our special kitchen: a place full of objects and utensils that we are all familiar with. We are going to use them to cook words that can be eaten with the eyes, with no need for forks or spoons. In our kitchen toasters fly, spices dance, garlic pole vaults and…umm, the smells are nourishing!!! Poetry, music and songs are the main ingredients with which we are going to prepare a scrumptious menu. Are you hungry? Bon appétit! ” Teloncillo Teatro
