"Dreams are about time floating like a sail boat" F.G. Lorca

"BE(NUS) is conceived like an immersive journey through the creators' most recurrent dreams during just one night. It entails a sensorial experience in which conscious reality is distorted and intermingles with the passions, impulses, delusions and fears that dwell in our subconscious, connecting everyday routines with fantasy.

BE(NUS) is based on experimentation and the fusion of dance styles with flamenco as a point of departure. Connection and active listening are essential. Each movement, each step, is a conversation between the artists and the audience.

Our approach focuses on the constant search of experimentation with the body. We immerse ourselves in sensations, rhythms and emotions using dance as a means to explore the limits of human expression." Lucía Albalat and Carlota Gutiérrez
